

# Extraordinary!

## Facilitation, Training & Development

*Ready to take your effectiveness to the next level?*

- Maximize learning, hold people's attention, increase participation and risk taking
- Gain insights from neuroscience about how to motivate and inspire people to perform at their highest level
- Explore ways to powerfully enhance the learning of any content
- Uncover ways to boost comprehension, retrieval, and application of your content
- Create connections with all types of people and personalities for maximum results
- Expand your strengths as a facilitator and trainer and grasp distinctions to take yourself to the next level.

**July 26-27, 2018**

**8:00am - 4:00pm**

*Quantum Learning provides professional development programs driven by neuroscience. Our methodology works to remove the obstacles that prevent the brain from learning and gives it the support it needs to do its job. Find out more about all that Quantum Learning has to offer by visiting our website [www.qln.com](http://www.qln.com).*
