

During this fun, practical, and engaging workshop you'll:

- Learn **WHAT** character traits are most important for students to learn (based on scientific research).
- Learn **WHY** it is essential to teach these life skills to all students.
- Learn **HOW** to weave character principles into any subject matter or grade level.

Experience Quantum Learning's character program, **The 8 Keys of Excellence**, and identify your own classroom values. Discover how to design engaging activities and lessons to guide your students' thinking and self-discovery about character.

This action-packed workshop offers **reinforcement ideas and follow-up strategies** to solidify character development and create positive beliefs and values in students.
