

EXCELLENCE IN TEACHING

Classroom Culture & Management

Days three and four of our Quantum Learning Excellence in Teaching, 6-day series. When teachers learn effective strategies on “how” to teach, their students are empowered to take ownership of their learning of the content. Quantum Learning provides the “how” as well as the “why” behind strategies for successful teaching and learning. Through hands-on activities, participants examine their current instructional practices. They affirm what’s working best in their classroom and consider what strategies would improve the culture and academic success. Detailed information to be sent after registration.

You will learn and experience strategies proven to:

- Create an engaging, intellectually challenging, classroom atmosphere
- Decrease classroom behavior issues and increase time on task
- Foster greater student responsibility and ownership for learning
- Heighten motivation and upgrade your students’ performance
- Boost your confidence and competence as a highly-effective teacher
